

RANJITH KUMAR M

DYNAMICS DEVELOPER (3+ YEARS)

OBJECTIVE

Eager and quick-learning Dynamics 365 and Power Platform developer seeking a role to expand my knowledge and contribute to a team focused on leveraging the full potential of the Microsoft Business Applications ecosystem

EXPERIENCE

TATA CONSULTANCY SERVICES (2022 – PRESENT)

Humana (2022 – 2024)

Dynamics 365 Developer who worked on the Humana Healthcare project. Skilled in JavaScript for form customization and building workflows for external API integrations, such as address verification systems. Successfully automated lead agent assignment, boosting operational efficiency and streamlining lead management. Passionate about leveraging this expertise to design impactful, innovative solutions in a dynamic role.

Central Bank (2025 – Present)

Implementing Dynamics 365 for a Central Bank project, focusing on onboarding customer journeys based on type of account and developing marketing email. Configure consent management to ensure customers receive only opted-in communications, reducing unwanted marketing. Unify customer and financial data from different sources in Customer Insights Data and derive meaningful segments.

Additional Experience

Experience in data analysis and machine learning and recognized as High Talent, utilizing libraries such as NumPy, pandas, scikit-learn, and NLTK. Proficient in applying machine learning concepts to solve business problems. Completed TCS internal Wings1 certifications in Machine First and Intelligent Business Automation, demonstrating a strong understanding of these areas.
